

I love how StudyBuddy helps me schedule my studies, but I keep missing notifications.

The UI feels a bit cluttered, especially on mobile. It took me a while to find the planner.

I was using it daily before exams, but I stopped because it didn't work offline.

Why does it remind me at 10pm? I study in the morning. Please allow custom times.

Great app overall, but needs integration with Google Calendar.

The AI tutor is cool, but it sometimes gives generic tips I already know.

The progress tracking feature motivates me to keep going, but I wish I could customize the study streak.

After a week of use, I stopped because I couldn't personalize my subject list.

Reminders were too frequent and felt like nagging rather than support.

Helped me pass my exams - love the goal checklist!

No support for dark mode. It's hard to use it late at night.

The flashcard quizzes are okay, but I prefer interactive lessons.

Sync issues with my devices. Lost my schedule once.

I liked the mindfulness suggestions after long study sessions.

I'd like a weekly report to review my performance trends.

I love how StudyBuddy helps me schedule my studies, but I keep missing notifications.
